SUMMARY

Laboratory phonetician specializing in the relation between physical articulatory gestures of speech and the corresponding acoustic output, with a focus on many-to-one articulatory-acoustic mappings, computational modeling of how multimodal vocal tract actions relate to the acoustic signal, and innovations in computational techniques to process and analyze large-scale speech kinematic data.

My long term goals are three-fold: 1) to achieve accurate modeling of speech articulation to acoustics, as well as acoustic-to-articulatory inversion, for which we have not yet attained satisfactory results that generalize across speakers and languages. 2) to use this modeling to help explain synchronic and diachronic patterns in speech production and change. 3) to innovate large-scale speech kinematic data analysis methods that advance academic, clinical, and industrial applications of speech data.

EDUCATION

University of Illinois at Urbana-Champaign	<i>Urbana, IL, USA</i>
Ph.D. — French (Linguistics)	2013
University of Illinois at Urbana-Champaign	<i>Urbana, IL, USA</i>
M.A. — French (Linguistics)	2009
Western Washington University	<i>Bellingham, WA, USA</i>
B.A. — Linguistics, French	2005
Graduated <i>magna cum laude</i> with Honors in Linguistics	

POSITIONS HELD

Institut für Phonetik und Sprachverarbeitung <i>Ludwig-Maximilians-Universität München</i>	<i>Munich, Germany</i>
Scientific Staff	2017 – present
Ampersand <i>Elsevier</i>	<i>Oxford, United Kingdom</i>
Editorial Board — Editor: Phonetics & Phonology	2016 – present
The MARCS Institute for Brain, Behaviour and Development <i>Western Sydney University</i>	<i>Sydney, Australia</i>
Adjunct Researcher — Speech and Language	2017 – present
Research Lecturer, Level B (US: Assistant Professor) — Speech and Language	2015 – 2017
North Carolina State University	<i>Raleigh, NC, USA</i>
Postdoctoral Research Scholar — Linguistics program	2013 – 2015
The Executive Voice, LLC	<i>New York, NY, USA</i>
Computational Consultant	2013

RESEARCH EXPERIENCE

The MARCS Institute for Brain, Behaviour and Development	<i>Sydney, Australia</i>
Research Affiliate — ARC Centre of Excellence for the Dynamics of Language	2016 – present
Analysis of Human Articulatory Actions (AHAA) Laboratory Coordinator	2015 – 2017
Université Stendhal-Grenoble 3	<i>Grenoble, France</i>
Research Affiliate — GIPSA-lab: Département Parole-Cognition	2011 – 2012
University of Illinois at Urbana-Champaign	<i>Urbana, IL, USA</i>
Phonetic & Phonology Laboratory Assistant — Linguistics Department	2009 – 2011
Research Assistant — Linguistics Department, French Department	2007 – 2011

TEACHING EXPERIENCE

Western Sydney University	<i>Sydney, Australia</i>
Lecturer in Linguistics — School of Humanities and Communications Arts	2015 – 2017
North Carolina State University	<i>Raleigh, NC, USA</i>
Linguistics Lecturer — Department of English	2013 – 2015
Université de Bourgogne	<i>Dijon, France</i>
English Lecturer — Département Anglais	2011 – 2012
University of Illinois at Urbana-Champaign	<i>Urbana, IL, USA</i>
French Lecturer — French Department	2006 – 2011

TECHNICAL STRENGTHS

PROGRAMMING LANGUAGES

Matlab

GUI-based tools for processing, filtering, and analyzing acoustic, aerodynamic, video, and kinematic data; three-dimensional vocal tract modeling from EMA data; acquisition of aerodynamic data; synchronization of multiple data streams; GUI-based tools for analyzing various characteristics of change in ultrasound and MRI video; automatic tongue contour detection in ultrasound video; two- and three-dimensional rigid body transformation of images, planes, and coordinates.

R

Data matrix manipulation; data visualization; time-series analysis; machine learning and classification; latent factor and component analysis; ultrasound tongue contour spatial analysis; kinematic data generation based on automatic image recognition and classification; modeling the contribution of articulatory factors to acoustics; statistical validation and prediction.

Praat

Spectral analysis of audio data; pitch analysis; computation and processing of nasalance data; processing and measurement of EGG data; automation of spectral and dynamic speech metrics for voice assessment and intervention; automation of audio splicing, spectral manipulation, and stimuli modification and synthesis; speech segmentation and annotation; data visualization.

Python

Automatic segmentation of speech (forced alignment); online data extraction; text manipulation.

RESEARCH EQUIPMENT

Production

Electromagnetic articulography (EMA), real-time structural magnetic resonance imaging (rtMRI), ultrasound, aerodynamics, nasalance, electroglottography (EGG), electropalatography (EPG).

Perception

Eye tracking (Eyelink 1000), E-Prime.

FUNDING & AWARDS

-
- Achievement Award in Recognition of Exemplary Service, The MARCS Institute for Brain, Behaviour and Development, 2016.
- Capital Equipment Bid, The MARCS Institute for Brain, Behaviour and Development, "EchoB compact external ultrasound system", Investigator: Christopher Carignan, \$15 965 AUD, 2016.
- Transdisciplinary and Innovation Grant, Australian Research Council Centre of Excellence for the Dynamics of Language, "Deciphering the great and mysterious singing machine", Investigators: Christopher Carignan, Catherine Best; Collaborator: Rebecca Scott, \$8 000 AUD, 2016.

Language Documentation Grant, Australian Research Council Centre of Excellence for the Dynamics of Language, “A field manual for ultrasound research”, Investigator: Robert Mailhammer; Collaborators: Mark Harvey, Jason Shaw, Tonya Agostini, Christopher Carignan, Donald Derrick, \$9 581 AUD, 2016.

National Science Foundation Graduate Research Improvement Grant (1121780), “Doctoral Dissertation Research: Oral articulation of French nasal vowels.” PI: Ryan Shosted; Co-PIs: Christopher Carignan, Zsuzsanna Fagyal, \$12 000 USD, 2011–2013.

University of Illinois Graduate College Dissertation Completion Fellowship, “Oral Articulation of French Nasal Vowels.”, \$20 000 USD, 2012–2013.

Speech Production Research Education Initiative (SPREI) grant, UIUC, \$1 000 USD, 2010–2011.
